Petition

To the Canadian National Railroad operating the East Tracks along the previous Illinois Central Rail Tracks

We the undersigned request that you clean up the fallen rotten shacks, long standing trash dump, piles of rotten food, rats, and other dead animals, dead and layers of rotting plants, fallen trees, and broken fences along your railway tracks between 53rd to 60th Streets in the Hyde Park Community of Chicago. It is directly adjacent to our children's historic Midway Plaisance Park and their athletic fields. This debris is a health hazard and public safety issue for the community and needs your immediate attention before an adult or child is injured or made ill.

The Midway Plaisance Park Advisory Council and the following Concerned Community Members
